Sports Surfaces

your partner ~ in sports surfaces

Henry Compton School, London

client: London Borough of Fulham and Hammersmith

value: £67,000

work: The school's existing 40m x 30m macadam playground was transformed into a synthetic grass multi-use games area with new rebound boards and fencing. Some new equipment and store was also provided.

Wymondham College, Norfolk

client: Wymondham College

value: £400,000

work: Construction of a sand-filled synthetic grass pitch with fencing and floodlighting, which meets the FIH Performance Specification for Standard International and National Competitions. The pitch is mainly used for hockey but is also marked up to provide 12 tennis courts when necessary.

*your partner
in sports surfaces*

We believe in giving you the best competitive advantage. That is why you will only ever deal with one of our highly skilled sports surfacing experts.

The strength of our service lies in the experience of our team. At Synergy, we look at a project from all perspectives; from the athletes and coaches, right through to the maintenance team, and of course, the investor.

We pride ourselves on being a completely independent consultancy and therefore always ensure our clients benefit from the latest technology, construction methods and products available, and always to suit their budget.

Our offering is diverse, from specialist surfaces for a particular sport, to multi use pitches, tracks and playgrounds – whatever your passion, we can help you realise your goals.

"As a client I have had complete faith in what you have done each step of the way. You have delivered with a first class product, on time and within the original budget. This is a very commendable achievement and I am delighted with the result! I will have no hesitation in recommending you to my Bursar colleagues."

Steve Lilley, Bursar,
Dauntsey School

Dauntsey's School, Wiltshire

client: Dauntsey's School

value: £550,000

work: Resurfacing of the existing sand filled, synthetic grass pitch to FIH performance specification for Standard International and national competitions. The pitch can be adapted to accommodate nine tennis courts and a new sand-dressed pitch for hockey, along with a warm up/practice area adjacent to the new pitch incorporating goal recesses, for cross-pitch games and floodlighting.

Moulton College, Northamptonshire

client: Moulton College

value: £550,000

work: Various projects over 6 years including a floodlit, water-based pitch, a full-sized, sand-filled synthetic grass pitch for hockey and multi games use, a smaller black-top macadam area, constructed to Type 2 MUGA performance specifications for netball and marked up for six tennis courts and a floodlit, 3rd generation synthetic grass pitch.

Ashton Playing Fields, London

client: London Borough of Redbridge

value: £350,000

work: Resurfacing and extending of the existing six lane, 400m track to an eight lane track with floodlighting. A new drainage system and kerbing were installed and the whole track and field event areas resurfaced and certified satisfactorily to the requirements laid down by IAAF/UKA.

The Leys School, Cambridgeshire

client: The Leys School and St Faith's Foundation

value: £550,000

work: Construction of a new block of four synthetic grass tennis courts with short pile, sand filled carpet, which can be used for netball and hockey practice. A sand-dressed, synthetic grass hockey pitch that is used for tennis in the summer, a synthetic long jump/run-ups, plus a pit and a high jump fan, with a polymeric rubber surface completed the project.
